Elder Jeffrey R. Holland of the Quorum of the Twelve Apostles of the Church of Jesus Christ of Latter-day Saints gave the opening keynote address at the Utah Coalition Against Pornography conference in Salt Lake City in 2016. Attendees were touched and inspired by the wisdom and compassion of Elder Holland's message of hope regarding the problem of pornography.

Fight the New Drug is a non-religious and non-legislative organization raising awareness on the harmful effects of pornography using only science, facts, and personal accounts.

Collin Kartchner is a sought-after, enthusiastic and funny speaker, teaching young people and their parents about the harms of social media, too much screen time, and pornography.
